History

JCyL provincial historic public record office:
Numancia archeological site in 1919

Numancia was one of the most important celtiberian villages and was inhabited by a tribe called “arévacos”.

The fight started when Numancia got allied with refugees of Segeda. The village is famous because of its resistance against the legions of Rome who surrounded the village under the rule of the general Escipion in 133 BC.

Finally, after 15 months of siege the numantians decided to kill themselves before submitting to Rome.
